

*Control your IT instead of
IT controlling you!*

Social Source South West Conference

Tuesday, 5th February 2008
St Werburghs Community Centre,
Bristol BS2 9TJ

An information and networking day
on low cost, low impact bespoke
ICT systems tailored to the
voluntary and community sector

Voscur

Social Source South West Conference Bristol, 05-02-2008

A networking and information day about free and open source software, and low-cost ICT for the voluntary and community sector.

There is no attendance fee and lunch will be provided for delegates.

Speakers and workshops include:

- Susie Halksworth, Resources Director at AFL, Cambridge, providing advice on IT and ICT projects;
- Gavin Beckett, IT Strategy Manager, Bristol City Council, responsible for implementing Star Office for 5,000 users;
- Paul Webster – National ICT Hub Champion;
- Collaborative web-based tools;
- VoIP telephones – the future of telephony;
- CMS & CRM – managing content and customers;
- LTSP – run your applications centrally for all users;
- Open Office and good practice;
- Recycling old hardware and greener computing.

Practical answers on the day

On registering, we can assess your IT needs and have bespoke systems ready for you to take away on the day. Friendly Bristol Wireless techs will also be on hand to answer your queries.

Register online: <http://www.survey.bris.ac.uk/voscur/sssw>
